

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

ESTE INFORME CONTIENE INFORMACIÓN IMPORTANTE ACERCA DE SU AGUA POTABLE. HAGA QUE ALGUIEN LO TRADUZCA PARA USTED, O HABLE CON ALGUIEN QUE LO ENTIENDA.

B.V.M.A. Has Levels of HAAS
Above Drinking Water Standards

Our water system recently violated a drinking water standard. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we did to correct this situation.

We routinely monitor for drinking water contaminants. Testing results we received on 05/26/26 show that our system exceeds the standard, or maximum contaminant level (MCL), for HAAS. The standard for Blacklick Valley Mun. Auth. is 0.060 was found at 0.0674.

What should I do?

You do not need to use an alternative (e.g., bottled) water supply. However, if you have specific health concerns, consult your doctor.

What does this mean?

This is not an immediate risk. If it had been, you would have been notified immediately. However, we have to issue a public notice + have 30 days from the time we get the results from our lab to notify the public.
What happened? What was done?

Exceeded HAAS MCL Level. We anticipate resolving the problem within 90 days.

For more information, please contact Jim Williams at 814-525-9101.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by Blacklick Valley Municipal Authority.
